Hiring Manager

388 Greenwich Street

New York, NY 10013

Dear Hiring Manager,

I am excited to submit my resume for your consideration to become a valuable member of the CUPID Accelerator. As a developer with experience in a variety of different technologies, I am well positioned to be a part of this program.

Citibank truly works at a large scale and is providing a real service to a huge customer base. I see a great opportunity to grow here while learning from one of the best in the business. My experience in working as the developer on a variety of projects demonstrates my ability to problem solve and use agile development strategies independently.

In my academic career, I developed leadership and decision-making skills by selecting high level classes that revolved around delivering large group projects every month with changing groups. I have leadership experience, having successfully led, and coordinated teams of volunteers, students and athletes.

A background education in Computer Sciences, alongside with extensive programming and volunteer experiences have prepared me to be a productive member of your team. A unique skill set that couples technical knowledge with significant team management and leadership experience can offer your organization a strong advantage even in the most difficult of times. I have that skill set and am excited by the opportunity to utilize it for an effective partnership with Citibank and to establish and further my career in an exciting and growing industry.

In addition to my post-secondary education in Computer Science, I have completed certifications in areas such as Software Development with JPMorgan Chase and been invited to events such as Passport To Google. I have a passion for learning and gaining practical knowledge and experiences to best complete the tasks assigned to me.

I would appreciate the chance to speak with you about my ability to fill this position. Thank you for your consideration, and I look forward to hearing from you.

Sincerely,

Devansh Sharma
